Mourn Passing of
Old Time Resident

The Fallen Timber district is mourning the loss of one of its old timers in the passing of Mr. John Taylor at the age of 72.

Mr. Taylor was born at Prairie du Chene, Wisconsin, in 1872. In 1905 he went to Ruchville, Wash., where he met and married Katheryne Nightengale and in 1908 they moved to the Fallen Timber district west of Didsbury where he resided until the time of his death on August 13.

Mr. Taylor is mourned by his wife, three daughters, Mrs. W. Monsey and Mrs. W. Roberts of Fallen Timber and Mrs. H. Russell of Elstton; five sons, John, Bernie, Ray, Joe and George, all of Fallen Timber; thirteen grandchildren.

Funeral services were held from United Missionary Church, Didsbury on Wednesday, August 18. Rev. Ruby Moore of Calgary officiated at the ceremony. Interment was made in the Didsbury cemetery. Pallbearers were Mr. McMillan, Mr. J. McGaffin, Mr. Taylor, Mr. W. Dick, Mr. J. Cooper and Mr. Henry Monsey.

A number of repairs have been made on the Fallen Timber school and grounds this week, preparatory to the commencing of the fall term.

Mr. and Mrs. P. Taylor and daughter are visiting Mr. and Mrs. E. Bruns of Carsfield for a few days.

Housing is nearly completed in this district but a few more days of dry weather are needed to finish it off.

Mr. W. Dick had the misfortune to break a spindle bolt on his truck on his way home from Didsbury last Wednesday, causing the truck to go into the ditch. However, no body was hurt and the truck is back on the road again.

W. H. McGaffin of Didsbury spent three days visiting his son, J. M. McGaffin of Elstton this week. Mrs. Ruby Moore will hold a church service in Fallen Timber school on Sunday, Aug. 22, at 2 o'clock.

Mr. Whittle and Mr. Stair have been putting up hay in the Water Valley district, but are now home as the rain has temporarily stopped haying operations.

Swalm Tour

(Continued from front page)

Mrs. E. Chatham whom many of the Didsbury pioneers will remember, At Langford they found Mr. and Mrs. Will Falk well and happy. In Victoria their former Didsbury friends, Mr. and Mrs. Jack Gregoire and Miss Ruby Hall, were very hospitable.

The trip by boat across to Port Angeles was very pleasant and from there they took the coast road as far south as Raymond, stopping at Kallock Beach to get a good look at the Pacific ocean. Thence to Portland, Ore., where they called on Dr. and Mrs. Pike. The latter's father and brother, Henry and Earl Miller, also live in that city. Dr. Pike is president of Casper College and his wife, countess, showed Mr. and Mrs. Swalm through the beautiful new administration building which is nearing completion. They also called on Miss Grace Fergi, Mr. and Mrs. Fred Bandy and Professor and Mrs. Willard Hallman in the same city.

From Portland they followed the beautiful scenic highway, "The Oregon Trail," for many miles before turning off to go to Nampa, Idaho. At Nampa they visited with Mr. and Mrs. C.W. Green. The latter is a former Didsbury girl. Miss Mabel Reist, Mr. E. Swalm's nephew, Paul Swalm, and family, and former neighbors, Mr. and Mrs. George Elmore, were also visited. The Elmores have only been there since last autumn but like it very well.

Nampa is situated in a very fertile irrigated area while surrounding this area is sage brush desert. The farms are small but produce very heavy crops. The wheat was just being threshed and yields from 80 to 100 bushels were reported. Three crops of alfalfa are raised every season. There is a lot of dairying being done and large amounts of onions are planted to onions and carrots for commercial seed, as well as fruits of various varieties, sugar beets and market vegetables.

Returning home by way of Spokane, they drove many miles over rolling country covered by large fields of wheat and acres of peas, both green and ripe. The crops through the northwestern states are very good this year and it was pleasant to see many large combines at work harvesting the golden grain.

Mr. and Mrs. Swalm saw many nice places and much beautiful scenery in their 4,200 mile tour, but the Didsbury district still looks good to them and they are glad to be home again.

The **Best**
banking system

CANADA has a banking system which, for efficiency and dependability, is unsurpassed in the world. Competitive, flexible, adaptable to the changing needs of the country, it serves Canada's producers, her industries, her traders—and it serves your personal needs, too.

No customer has to fear for the privacy of his regular banking transactions. This privacy is completely free of political pressures or considerations—it is rooted in Canadian banking practice and tradition.

Contrast this Canadian way with conditions in lands where freedom is denied—where every bank is a political tool, every banker a State official! State monopoly of banking, proposed by Socialists here, would fasten the Marxist foreign pattern on you.

HEAVY GRASS GROWTH CAUSES FIRE HAZARD

With an unusually heavy growth of natural grass on the range lands of Southern Alberta, the Forestry Branch of the Department of Lands and Mines recently issued a word of caution to all persons travelling in that area.

Prairie fires have already destroyed vital feed supplies and endangered stock, buildings and individuals. Present periods of warm weather mature and dry the grass, materially increasing the danger of fire.

Fires strip the ranges of the grass farmers and ranchers depend upon for stock feed and in view of the world-wide demand for beef cattle it is essential that stockmen of the province conserve all feed possible.

Persons travelling, fishing or camping in the grass land areas are asked to pay particular attention to the use of matches, cigarettes and other inflammable materials. Don't leave matches, pipe ashes or camp fires until absolutely certain that they are cold out.

50,000 Acres Sprayed With 2,4-D in 1947

It is estimated that \$2,000,000 is lost annually in Canada alone because of weeds. This is expected to be greatly reduced in the years ahead by the use of the new wonder chemical 2,4-D. In 1947 some 50,000 acres of crop were treated with almost spectacular results. Most of the weeds were killed entirely while the top growth of such perennials as sow thistle, field bindweed and Canada thistle were killed and the heads down by these was then greatly reduced.

While the actual field work on the use of 2,4-D in summerfall was not as extensive as crop spraying in 1947, numerous experiments were carried out and it has been proven that 2,4-D has a definite use as a means of eliminating weeds in different areas. It also has the distinct advantage of not disturbing the soil undisturbed, reducing the hazard of soil drifting and moisture evaporating that often results from the pulverizing effect of the constant use of tillage implements.

"It's Pool Elevators This Year"

The Alberta Wheat Pool is celebrating its 25th anniversary. The rallying cry is "Make this year a Pool Elevator Year."

Many of the men who participated in the formation of the Alberta Wheat Pool are no longer engaged in farming. The younger generation of farmers may not be so keenly aware of the pressure of circumstances which brought about the Alberta Wheat Pool's formation. Nevertheless, they should realize that the Wheat Pool has been a tower of strength to Alberta agriculture.

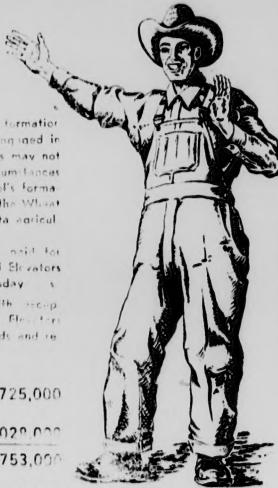

Alberta farmers have, over the years, paid for many an elevator system. But Alberta's Pool Elevators is the only one owned by Alberta farmers today.

Besides providing grain products with exceptional service and protection, Alberta's Pool Elevators has, over the years, paid patronage dividends and re-deemed reserves as follows:

Patronage dividends paid in cash	\$ 3,725,000
Patronage dividends paid in reserves	3,020,000
Purchases of reserves from members	\$ 6,753,000

This record shows what can be done through co-operative effort. This year deliver your grain to —

What To Do For FAINTING

FAINTING is a condition due to sudden failure of the action of the heart, which may be caused by hemorrhage; or by fatigue, want of food, or a close or crowded room; or by fright, dread, sudden bad news, or by the sudden relief from fear or anxiety after prolonged suspense.

The signs are: The patient turns giddy and falls; the face is pale; the pulse is rapid and weak, or almost imperceptible; the breathing is quick, sighing and irregular, and the skin becomes cold and clammy.

TREATMENT:

1. Undo all clothing about the neck, chest and waist.
2. Ensure an abundance of fresh air; open windows and doors; keep back a crowd; remove from harmful gases or impure atmosphere.
3. Sprinkle the face with hot and cold water alternately, and apply warmth to the pit of the stomach and over the heart; vigorous friction of the limbs upwards has a stimulating effect. Smelling salts may be held to the nose.
4. If bleeding has been the cause of the condition, guard against its recurrence. The wound will not bleed to any marked extent while the action of the heart is feeble. The wound must be carefully watched to be sure that bleeding does not recur when the patient begins to regain consciousness and the heart's action improves; or, if there is no wound look for signs of hemorrhage from an internal organ.
5. If want of nourishment has been the cause of the condition give food sparingly at first.
6. Give no food or fluids whatever by the mouth while the patient is insensible.

WEDDING SHOTS

FALK—VOGEL

A pretty wedding was celebrated in Galancy Saturday, August 14 when Marion Falk, second daughter of Mr. and Mrs. Falk of Calgary, became the bride of Lloyd Vogel, eldest son of Mr. A. H. Vogel of Garsairs. The marriage was performed by the Rev. George Penitentiary.

Following the ceremony a reception was held at the Club Cafe, Galancy, where thirty-five guests were served.

After the reception the happy couple left by car for a honeymoon spent at Penitentiary and other B.C. points.

Dear Editor:
As you drive over the Didsbury streets do you honestly think that this town is giving us farmers and truckers a fair deal? The road from the hospital to town is terrible, just a crime. Why put up a 15 mile per hour speed limit sign when if you drive this fast you could take a whole day to get home. We asked to spend their money in their home town but they don't care how you get there. Anyone who will admit it will say it's a crime, as the merchants like to protect their customers. We also would like to protect what we use in driving to town. The road is not supposed to be a smart trick or a foolish trick, but a real honest fact.

Hoping someone's pigs get out and root a few needless bumps off the road, I am yours truly,

BILL SHAW
